Modular Approval Letter

Date: 2013-08-5

To whom it may concern:

We, Hitron Systems Inc., hereby request Limited Modular Approval for Product: Wireless N dual-band Moudle (Model number: WL0241, FCC ID: 2AAN4-WL0241). The EUT meets the requirement for modular approval as detailed in FCC Public Notice DA 00-1407. Compliance to each of the requirements is described below:

1. The modular transmitter has its own RF shielding. Please refer the product photo.
2. The modular transmitter has buffered modulation/data inputs, Buffered data inputs stage has been integrated in chip (Model: RT5572).
3. The modular transmitter has its own power supply regulation. Please refer to the Block Diagram.
4. Comply with the antenna requirements of Section 15.203 and 15.204(c), the module has 2 dipole Antennas.
5. The modular transmitter be tested in a stand-alone configuration => the modular be supplied by DC power, and the cables was longer than 10cm at testing, all cables have not ferrites.
6. Equipped with either a permanently affixed label or must be capable of electronically displaying its FCC Identification number. FCC ID is shown on the label and permanently affixed to this modular transmitter, please refer to the User Manual.
7. Comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. The necessary explanation to be complied with this requirement is contained in the user manual, and please refers to the User Manual.
8. Comply with any applicable RF exposure requirements in its final configuration.

Sincerely,

A handwritten signature in black ink, appearing to read "Wonseok Jang", is written over a faint, circular official stamp.

Signature:
